Attention: **BOX AF**

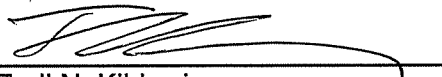

Sir:

In the telephone interview conducted on April 15, 2009, the Applicants' representative and the Examiner discussed the recited limitation of claims 1 and 13, "a plurality of identical write protection information is stored in physically separate locations." The Examiner suggested that the Applicants amend the claims to specify that the plurality of write protection information is for the purpose of backup and redundancy, while the overwrite prevention information in the cited prior art (Ro) is for protecting corresponding recording data. In response, the Applicants' representative argued that the cited prior art reference (Ro) does not disclose a plurality of identical write protection information, as the plurality of overwrite prevention information in Ro are different in at least the Position Data field.

Respectfully submitted,
